The Culverhouse College of Commerce at The University of Alabama invites applications for ***two faculty positions*** in Applied Statistics, at the Associate or Full Professor level, with an expected start date of August 16, 2018. Candidates must hold a Ph.D. in Statistics, or a closely related field. Successful candidates will be expected to lead independent and rigorous research in statistics with an emphasis on Data Science or Network Analytics. Preferred candidates will also have interdisciplinary research interests in at least one of the following application areas: energy, water, environment, lifespan, healthcare, cybersecurity, or transportation. Applicants with a track record of externally funded research are strongly preferred.

Salary is very competitive and commensurate with experience and achievements. Applicants must apply online at https://facultyjobs.ua.edu/postings/41281 and include a one-page cover letter, curriculum vitae, research statement, one or two representative research papers, and a list of at least three references with contact information. Required documents not attached at the time of application will disqualify application. Prior to hiring, the candidate must successfully pass a pre-employment background investigation.

The review of applications begins immediately, and applications will be accepted until October 1, 2017. All inquiries should be directed to the search committee chair, Dr. Marcus Perry, at mperry@cba.ua.edu.

The applied statistics group, within the Department of Information Systems, Statistics, and Management Science (ISM), currently has 10 faculty members and offers a M.S. and Ph.D. in Applied Statistics. Ideal candidates should be able to make immediate and substantial contributions to an emerging analytics program in both research and teaching.

Founded in 1831 and located in the historic city of Tuscaloosa, The University of Alabama is the main campus of the university system and the largest in the state with a total enrollment of over 37,000 students. The Culverhouse College of Commerce, founded in 1919, now includes over 8,500 students and 150 faculty members. With a metropolitan population of about 120,000, the Tuscaloosa area offers excellent quality of life with many cultural and outdoor activities.
