

The Ninth POMS-HK International Conference

6-7 January 2018

Call for Paper

The Ninth POMS-HK International Conference will be organized by The Chinese University of Hong Kong (CUHK) from **6-7 January 2018**. The conference will be held in the beautiful campus of CUHK in Shatin. Since its beginning, the POMS-HK International Conference has been a great platform for researchers and practitioners from greater China and beyond to exchange research ideas and industry practices in production and operations management. The theme of the conference this year is “**OM and Analytics — The New Horizon**”.

You are invited to submit abstract/papers that are related to the following themes:

- Manufacturing operations management and innovation
- Service operations management and innovation
- Applied research
- Innovation analytics and data-driven OM
- E-commerce
- Quality management
- Service and production scheduling
- Sustainable operations management
- Supply chain management
- Logistics management
- Global operations management
- Healthcare operations management
- Humanitarian and crisis management
- Interface between OM and other fields: accounting, finance, marketing, information system, new product development, R&D
- Risk management
- Revenue management
- Empirical studies in the service and operations management
- Behavior operations management
- Emerging OM issues

Abstract Submission

- Abstract should include a title, the names and affiliations of all authors (please indicate the presenting author), and 3-5 keywords. Please also select at least one topic from the above list. The length of the abstract should be no more than 100 words.
- All submitted abstracts will be reviewed. Accepted abstracts will be published on the conference website only if the presenting author has registered for the conference by the registration deadline for presenting authors (which is December 11, 2017).
- Abstract should be submitted by email to editorpomshk@cuhk.edu.hk with subject “POMS HK 2018 Abstract Submission”.

Important Dates

Item	Date
Submission of abstracts	30 October 2017
Submission of Best Student Paper Award	30 October 2017
Notification of acceptance/rejection/revision of abstract	27 November 2017
Registration deadline for presenting authors	11 December 2017
Early bird registration deadline	5 December 2017
Registration deadline	18 December 2017
Conference date	6-7 January 2018

Best Student Paper Competition

Awards

1. The **first-place** will receive **HK\$4000**.
2. The **second-place** will receive **HK\$2000**.
3. Each **honorable mention** will receive **HK\$500**.

Eligibility Requirements and Author Guidelines

1. Competition participants should be students. The paper should be led and presented by the student during the conference. Each participant is required to register the conference and submit only one entry for competition. Failure to register the conference may lose the eligibility of the competition.

2. Paper topic must fit the conference's theme. The submitted paper should be written in English, and the presentation should be conducted in English as well.
3. To participate in the competition, please submit an electronic form (in MS-Word or PDF format and should not exceed 32 pages) with paper/presentation title, author names, and the corresponding author's phone/fax number and email the submission with subject "Best Student Paper Competition" to editorpomshk@cuhk.edu.hk on or before October 30, 2017. The format of the paper should follow that of the manuscripts submitted for consideration by Production and Operations Management which is available at http://www.poms.org/journal/author_instructions/.
4. Submissions for student paper competition will be considered for conference automatically (and hence please do not submit the same paper for conference presentation).

Award Selection Criteria

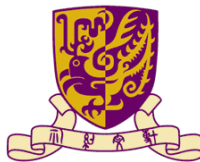

Each paper/presentation will be evaluated based on two criteria:

1. Academic significance (originality, depth, completeness, and work's potential impact on future research).
2. Engineering or business relevance (importance of the problem and its impact on engineering or business practice).
