

Assistant/Associated Professor in the Department of Management Sciences
City University of Hong Kong

The Department of Management Sciences within the College of Business invites applications for multiple tenure-track or tenured faculty positions in business analytics/management science/operations management/supply chain management. A Ph.D., completed or near completion, and strong potential for quality research and teaching is expected. Preference will be given to those candidates with research and teaching interests in applied statistics, business analytics, optimization, operations/supply chain management, machine learning or a closely related field. Successful candidates are expected to develop a vigorous research program and to teach courses in business statistics, operations analytics, operations/supply chain management and related courses, first at the undergraduate level and then the graduate level (including MBA). For senior positions, they are also expected to provide contribution/leadership in research, plan curriculum of studies and supervise postgraduate/PhD students.

City University is an international university in a world city, Hong Kong, and it has been ranked among the Asia's top 25 schools. The Department of Management Sciences has attained international recognition. We have a strong group of researchers specializing in operations management and business analytics. Salary will be commensurate with qualifications and experience. Fringe benefits include annual leave, medical/dental benefits.

If you are interested in the position, please send your CV and other application materials to Head of Department Prof. Alan Wan via email: msawan@cityu.edu.hk.
