

Call for Poster Proposals for 2022 INFORMS RAS Poster Session & Competition

You are invited to submit a proposal to present a poster in the Railroad Application Section (RAS) poster session for the 2022 INFORMS Annual Meeting, October 16-19, in Indianapolis, IN.

Objectives

The rail industry is tightly connected with Operations Research and Analytics. The RAS poster session provides an interactive way to share knowledge and state-of-the-art research in railroad applications. Poster presenters will have the opportunity to showcase the research or projects that are even in the early stages of development, and benefit from the interactive critique, suggestions, and encouragement from colleagues working in the rail area. Any topics related to Operations Research or Data Analytics in railroad business are appropriate.

Abstract Submission

To submit a proposal, please email the following information to Pengling Wang via pengling_wang@tongji.edu.cn by July 25, 2022.

- Title of presentation
- Presenter name(s) including full first and last name and all degrees for each presenter
- Institution/company name and address
- Telephone number
- Email address
- A narrative abstract (500 words or less) of your presentation, including the outcomes or results of the program, project, curriculum innovation or research.

These abstracts will then be reviewed by RAS officers, and 10-15 entrants will be selected to display their posters at the 2022 INFORMS Annual Meeting. Entrants will be notified by August 15, 2022 if they have been selected to present their work.

Award

- RAS is sponsoring cash prizes for this poster session. Only academic entrants are eligible for the awards.
- Awards are offered at three levels: \$150 for First Place, \$100 for Second Place, and \$50 for Third Place.

Display/Presentation Guidelines

- For in-person presentation, the poster must fit completely within the 30-inch by 40-inch bulletin board provided by INFORMS.
- A poster may be presented as either (1) a single large sheet of paper that can be rolled and transported in a tube or one large piece of corrugated plastic that can be folded in thirds for easy transport; or (2) as multiple pages that are mounted onto the bulletin board.
- The contributing presenters will be assumed to be the individuals who will attend the 2022 INFORMS Annual Meeting to present the poster.

If you have general questions about the RAS poster session, contact Pengling Wang via pengling_wang@tongji.edu.cn.
