

# IOE GRADUATE SCHOOL WEBINAR

Friday, November 19, 9–10 a.m. Eastern Time (US/Canada), 2021

Are you interested in graduate school and career opportunities in industrial engineering? Join us and discover industrial engineering and areas such as data analytics, operations research and human systems integration

## WATCH

Videos from faculty and students discussing their research and life in IOE.

## ATTEND

A 1-hour interactive webinar with IOE's associate chair of graduate studies, chair of graduate admission committee, and other faculty members.

## FIND OUT

Tips for success, like what admissions committees look for in applications, how to choose where to apply, and what to consider when selecting an offer.

## PREPARE

You do not have to be majoring in engineering to apply. Our students have a diverse range of backgrounds in STEM, including economics, math, statistics, information science, psychology, and more.

The event is designed for all undergraduate and graduate students who want to learn about graduate school in industrial engineering and how to increase the odds of acceptance to master's and PhD program. This event is open to all **domestic and international** students!

GRE score is waived for both Master's and PhD applications.  
Application fee is waived for US citizens and permanent residents.

Scan the QR code to apply.
