

### **Associate/Full Professor - Operations Research**

The Department of Mechanical and Industrial Engineering at the University of Toronto invites applications for one tenure-stream faculty position in the area of Operations Research at the rank of Associate or Full Professor, starting July 1, 2018.

Candidates must have a PhD in operations research, industrial engineering, or a related discipline. The ideal candidate will have an established international reputation in one or more methodological areas as well as in key application domains related to Operations Research (e.g., data analytics and machine learning). An emphasis will be placed on the demonstrated ability to strengthen the capacity of research and teaching of the existing faculty members in the area of Operations Research within the program. The successful candidate must have an outstanding academic and research record including refereed publications, and effective teaching ability. It is preferred that candidates have an undergraduate degree in engineering and be eligible for registration as a Professional Engineer.

The successful candidate will be involved in undergraduate and graduate teaching, research, and departmental service. Evidence of excellence in research and teaching are required.

The successful candidate must provide evidence of an established international reputation as demonstrated by leadership in the academic community, as evidenced by editorships, research output, awards and accolades; as well as excellence in research as evidenced primarily by sustained contributions and the quality of publications in top-ranked and field relevant journals, the submitted research statement, strong letters of reference from referees of high international standing, and other documents submitted for review.

Participation in top conferences, presenting research at other highly ranked schools, and other noteworthy activities in engineering that contribute to the visibility and prominence of the discipline are assets.

Excellence in teaching should be demonstrated by a strong statement of teaching philosophy, excellent teaching evaluations, strong endorsements from referees, and the teaching dossier submitted as part of the application.

Salary and rank will be commensurate with qualifications and experience.

Established in 1827, the University of Toronto is Canada's largest university, recognized as a global leader in research and teaching. U of T's distinguished faculty, institutional record of groundbreaking scholarship and wealth of innovative academic opportunities continually attract outstanding students and academics from around the world. The Department of Mechanical & Industrial Engineering at the University of Toronto is home to the top mechanical and industrial engineering programs in Canada. We foster a world-class environment that excels in teaching, learning and research.

All qualified candidates are invited to apply by clicking on the link below. Applications must include a cover letter, curriculum vitae, teaching dossier (including a statement of teaching philosophy and

teaching evaluations), and a statement outlining current and future research interests. If you have questions about this position, please contact [chair@mie.utoronto.ca](mailto:chair@mie.utoronto.ca) . All application materials must be submitted online by the closing date of November 20, 2017.

Submission guidelines can be found at: <http://uoft.me/how-to-apply>. We recommend combining attached documents into one or two files in PDF/MS Word format.

Applicants should also ask three referees to send letters directly to the department via e-mail (on letterhead and signed) to [chair@mie.utoronto.ca](mailto:chair@mie.utoronto.ca) by the closing date, November 20, 2017.

For more information on the University of Toronto, and the Department of Mechanical & Industrial Engineering, please visit our website: <http://www.mie.utoronto.ca>

The University of Toronto is strongly committed to diversity within its community and especially welcomes applications from racialized persons / persons of colour, women, Indigenous / Aboriginal People of North America, persons with disabilities, LGBTQ persons, and others who may contribute to the further diversification of ideas.

As part of your application, you will be asked to complete a brief Diversity Survey. This survey is voluntary. Any information directly related to you is confidential and cannot be accessed by search committees or human resources staff. Results will be aggregated for institutional planning purposes. For more information, please see <http://uoft.me/UP>.

All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority.
