POSITION OPENING ANNOUNCEMENT
DEPARTMENT OF APPLIED STATISTICS AND OPERATIONS RESEARCH
BOWLING GREEN STATE UNIVERSITY
BOWLING GREEN, OH 43403-0267

FACULTY POSITION OPEN AUGUST, 2015

Assistant Professor of Business Analytics – Tenure Track

QUALIFICATIONS

Tenure track assistant professor of Business Analytics position starting August 2015. The position is created to enhance the College's continuing pursuit of program and research development in business analytics at the undergraduate and graduate levels. Doctoral degree in Statistics, Operations Research/Management Science or a closely related field is required by the starting date. Candidates must have a primary research interest in developing analytic tools relevant to business and an interest in collaboration with other College of Business Administration colleagues in finding solutions to business problems. A successful candidate is expected to have a demonstrated potential for excellence in teaching and research. Teaching responsibilities will depend on the candidate's field of specialization. They may include courses in Applied Statistics and/or Management Science at the undergraduate and graduate levels. The department also teaches in the full-time, professional, and executive MBA programs. Specific research interest and experience in areas such as data mining, text mining, analytics and business intelligence is highly desirable. More information is available at www.bgsu.edu/business/asor.html.

RESPONSIBILITIES

Expected to teach at both graduate/undergraduate levels, and develop an active research agenda. Externally supported research/application oriented program/project development is desirable. University/professional service is also expected.

COMPENSATION

Compensation for the academic year will be competitive and includes a full benefit package.

Application must be postmarked by December 12, 2014. Send cover letter, CV, three current and original letters of recommendation, and official transcripts to:

Bowling Green State University is a state-assisted residential institution with an enrollment of approximately 19,000 students located in Bowling Green, Ohio, near major business and industrial centers. At the undergraduate level, the Department of Applied Statistics and Operations Research offers a specialization in Business Analytics and Intelligence and a minor in Applied Statistics. At the graduate level, the Department offers a M.S. in Applied Statistics jointly with the Department of Mathematics and Statistics. The Department also operates the Center for Business Analytics which is actively involved in helping University faculty and graduate students with statistical and operations research problems, as well as working with external clients on statistics, operations research and business analytics related projects.

Bowling Green State University is an Affirmative Action/Equal Opportunity Employer and encourages applications from women, minorities, veterans and individuals with disabilities.
