Award recipients' selection procedure

The award recipients will be selected by a three-person Awards Committee, which consists of the Chair and two members. To inform its opinion, the Committee will seek up to three referee reports for each submission. The referees will be selected to minimize the conflict of interest with the authors, and will include other CBOM members and/or researchers in this domain. To the extent possible, anonymous referee comments will be returned for each submission.

If a submission has a substantial conflict of interest with a member of the awards committee, the other committee members will primarily handle the entry, assign referees and evaluate the submission. Should the submission be recommended as a finalist by the remaining two committee members, the CBOM President (or designee) will assist in evaluating and/or ranking the finalists.
