

# Cornell Engineering Operations Research and Information Engineering

Thinking about life after graduation? Consider leveraging your analytical skills and boosting your market value with a Master of Engineering in Operations Research and Information Engineering.

**For Fall 2016, you now have TWO options for the ORIE M.Eng.!**

## ORIE M.Eng. at Cornell Tech in New York City

The program at the Cornell Tech campus takes students to the cutting edge of ORIE and equips them with entrepreneurial skills to become true tech leaders. The program is designed to raise data scientists and quantitative analysts who will thrive in technology-driven environments that use computational tools, algorithms and large amounts of data to make business decisions. As part of the co-curriculum with fellow Cornell Tech masters students from different disciplines, ORIE M.Eng. students will undertake tech-focused projects, participate in design and studio time, and build their own startup ideas.
