

IOE GRADUATE SCHOOL WORKSHOP

SATURDAY, SEPTEMBER 21, 2019

Join us in Ann Arbor for a one-day interactive workshop and learn how to launch your career and change the world with a graduate degree in Industrial and Operations Engineering

LEARN

about our latest research and student life directly from faculty and current students

EXPLORE

professional opportunities beyond graduation and tour our department and campus

FIND OUT

about graduate school applications, the admissions process, and funding

ATTEND

mixers and panel discussions with other prospective students and PhD students, faculty, and staff from our department

This workshop is designed for undergraduate students and others who are within 1–2 years of applying to graduate programs. You do not need an engineering background to apply. All applicants selected to attend will have their travel and lodging costs covered.

Applications are due **July 31, 2019.**
