

INSEAD PhD Programme Call for Applications September 2020 intake

INSEAD is now accepting PhD applications for the Technology and Operations Management for September 2020 intake, with a deadline of 06 January 2020.

We are now actively looking for qualified candidates who are keen to pursue a career in business academia. All PhD applicants admitted to the programme will receive 5 years of full funding from INSEAD, including tuition fee waiver, annual stipend, research and conference budget support, and health insurance coverage.

INSEAD PhD candidates will receive intensive foundations training in their coursework, so that they will have the essential tools to conduct rigorous research. In addition to receiving classroom instruction and discussion, PhD candidates will go through a rigorous teaching preparation programme and research practicum. The INSEAD PhD Programme is highly interdisciplinary, and PhD students are strongly encouraged to collaborate with peers and faculty members across all areas.

For over 30 years, we have a formidable placement history, with our PhD in Technology and Operations Management securing top academic placements globally – Harvard, Wharton, Chicago Booth, Georgia Tech, Northwestern, Vanderbilt, Carnegie, UC Riverside, Georgetown, Virginia, LBS, IE, IMD, HEC, Singapore Management University and National University of Singapore, etc.

Moreover, with the INSEAD PhD, students

- Can take advantage of the PhD's unique two-continent format, studying in either France or Singapore, with a mandatory exchange between the two campuses; and an option to pursue an exchange with Wharton through the INSEAD-Wharton Alliance Exchange Programme.
- Collaborate with a diverse group of faculty and peers who are coming from excellent academic backgrounds. The diversity in both the school and the programme contributes to a more meaningful collaboration among the members of INSEAD and the PhD Community.

We have a series of webinars taking place in the month of November. To register, please go to <http://inse.ad/phd-events>.

About the Technology and Operations Management area in the PhD Programme

Technology and Operations Management (TOM) faculty members are widely recognized for their excellence in research, as reflected in their publications in top academic journals and leadership positions in academic communities. Faculty members have served as senior, associate and guest editors of top management journals. Under the faculty's close mentorship, students have also earned top recognition for their dissertation in major academic conferences.

Research in this field draws from a rich methodological background in operations research, economics, and statistics. The TOM faculty members at INSEAD have incorporated this diversity in both issues and methodologies in their research; thus, creating an intellectually stimulating environment for doctoral studies. The INSEAD TOM PhD is characterised by its interdisciplinary nature, a good blend of academic rigour and industry relevance in research, along with a unique international focus.
