

Ph. D. Opportunity for Black Students @ Department of Supply Chain Management

Application is now open for our PhD program, aimed at motivated candidates who aspire to drive organizational success through operational excellence. This unique opportunity is made possible by the ASU Presidential GA Grant, awarded to the Department of Supply Chain Management.

For this position, we are exclusively inviting applications from Black students. Selected candidates may be admitted to our PhD program off-cycle, pending eligibility and acceptance.

About the W. P. Carey School of Business

One of the largest business schools in the United States, ASU's W. P. Carey School of Business is internationally recognized for its leadership in business education.

The school is consistently ranked among the best business schools by *U.S. News & World Report* and other publications for undergraduate programs, MBA programs, and Online learning. Likewise, the research productivity of our faculty is highly regarded, consistently ranked top 30 worldwide by the University of Texas at Dallas Top 100 Business School Research Rankings.

Our mission

The W. P. Carey School of Business educates tomorrow's business leaders, takes an entrepreneurial approach to learning, and conducts groundbreaking research in order to create positive change on a global scale.

Our vision

The W. P. Carey School of Business creates leaders who:

- Rethink the nature of business
- Engage the world
- Create a better future

Doctoral Students

Accepted students will receive a generous stipend, full tuition support, and numerous opportunities for seminars and conferences designed to enhance their professional network. Our program is committed to preparing students for the academic job market.

Historically, our PhD graduates have secured tenure-track positions at leading institutions, including but not limited to Penn State, Indiana University, the University of Tennessee, the University of Notre Dame, and the Stockholm School of Economics.

The school sits at the heart of Tempe, neighboring greater Phoenix area, one of the fastest growing cities in the US. The technology hub provides unparalleled opportunities to interact with large business such as Intel, Amazon, APL logistics, Target, Honeywell, among others. Furthermore, our renowned **CARISCA** Center fosters collaborations with a wide range of industries and individuals across Africa. Students have opportunities to take internships at a business or nonprofit to conduct use-inspired research. Tempe also offers rich and diverse cultural experience, with an outstanding standard of living.

About our research

The research productivity of our faculty members is consistently ranked among the best in the world, and spans logistics management, operations management, and supply management. Our research advances knowledge in global supply chain management while focusing on issues of practical importance.

Much of our faculty research involves corporate partners who work directly with us, providing support and guidance. Opportunities for research with these partners are available through CAPS Research, CASN-RA, the Frontier Economies Logistics Lab, the Healthcare Research Consortium, and the Internet Edge Supply Chain Lab.

Research opportunities

- sustainable operations
- global health and humanitarian logistics
- nonprofit operations
- operations in less developed countries
- innovation management
- risk management
- global supply chains
- operations strategy

The PhD in business administration with a concentration in supply chain management

A full-time residential program for students whose career goals are full-time, tenure-track research and teaching positions at research-focused universities, the PhD with a concentration in supply chain management will develop your capability to recognize problems related to supply chain management, frame these problems into research questions, and address them in a scholarly way.

During the program, you will review, analyze, conduct, and publish research. A series of doctoral seminars and research methods courses, as well as participation in active research projects, will prepare you for your research. Additionally, you will develop and hone your teaching skills through assignments as a teaching assistant or instructor.
