

IOE FUTURE GRAD STUDENT WORKSHOP

SATURDAY, OCTOBER 1, 2022

Are you interested in graduate school and career opportunities in industrial engineering? U-M Industrial and Operations Engineering (U-M IOE) is holding a one-day interactive graduate school workshop in Ann Arbor for selected applicants.

LEARN

About careers in consulting, finance, healthcare, supply-chain management, energy, transportation, academia, teaching, research and more.

DISCOVER

Industrial engineering and areas such as data analytics, operations research and human-systems-integration.

FIND OUT

Tips for success, like what admissions committees look for in applications, how to choose where to apply and what to consider when selecting an offer.

APPLY

You do not have to be majoring in engineering to apply. Students with computer science, economics, physics, statistics, mathematics and other STEM backgrounds are encouraged to apply.

The workshop is designed for domestic undergraduate students in STEM fields who want to learn about graduate school in industrial engineering and how to increase the odds of acceptance to masters and Ph.D. programs. This event is open to all domestic students. All applicants selected to attend will have their travel and lodging costs covered.

The application deadline is August 31, 2022.
