

PAMPLIN COLLEGE OF BUSINESS
CENTER FOR BUSINESS ANALYTICS
 VIRGINIA TECH™

The Pamplin College of Business at Virginia Tech is seeking a visionary, entrepreneurial-minded, program builder and force multiplier to be the next Executive Director of the Center for Business Intelligence & Analytics.

Center for Business Intelligence and Analytics:

Virginia Tech is committed to excellence in analytics research and practice. Data and Decisions is one of the University's five Destination Areas and Business Analytics is one of the three strategic pillars of the Pamplin College. The Center for Business Intelligence and Analytics is a driving force within Virginia Tech for the creation of collaborative relationships with students, faculty, and corporate leaders to advance best practice in business analytics education, experiential training and research. The center serves as an interdisciplinary resource to support faculty research both within the Pamplin College of Business and in cooperation with other centers and academic units at Virginia Tech. It also leads curricular initiatives for students with interests in business intelligence and analytics and builds synergistic partnerships within the Virginia business community. The Center for Business Intelligence and Analytics is one of three centers serving the broader university housed in Pamplin College of Business. The others are the Apex Center for Entrepreneurs and a new Center for Real Estate.

The Executive Director will be responsible for leading the Center for Business Intelligence and Analytics as it enters a new phase of growth and expansion, contributing more broadly and boldly to this critical university initiative by generating 3-5X growth in center programming, resources and value creation. The Executive Director will be responsible for working with key university resources, including the Data and Decisions Destination Area and the University's new center for business engagement, LINK. The Executive Director will be responsible for engaging external stakeholders to help secure resources and avenues of funding to help build center capability and support ongoing programming growth to enhance value creation. This position reports to the Associate Dean for Research and Faculty Affairs.

Candidates should have: Master's Degree or equivalent work experience, knowledge of analytics best practices, market trends, drivers and key technologies, experience in industry outreach and collaboration with corporations, non-profit and/or public sector entities, strong program development, execution and growth experience, supervisory and team development experience, strong written and oral communications skills; excellent interpersonal and collaboration skills, demonstrated commitment to equity and inclusion, leadership experience appropriate to a senior leadership role. The Center for Business Intelligence and Analytics is one of three centers serving the broader university housed in Pamplin College of Business. The others are the Apex Center for Entrepreneurs and a new Center for Real Estate. The position will be in Blacksburg, which is located in the Blue Ridge Mountains near the Appalachian Trail. Blacksburg's beauty and temperate climate is attractive to many. Blacksburg also has high quality primary and secondary schools (K-12) as well as a relatively low cost of living.

Candidates are invited to complete the first two pages of the online application at <http://listings.jobs.vt.edu/postings/86085> and attach a curriculum vitae. In your CV, please provide names and contact information for at least three references. Candidates may also send their CV to Kevin Carlson (kevinc@vt.edu) who is chair of the search committee. If requested, applicants should be prepared to provide evidence of teaching effectiveness, publications, and working papers.

Virginia Tech has a strong commitment to the principle of diversity and, in that spirit, seeks a broad spectrum of candidates including women, minorities, and people with disabilities. Individuals with disabilities desiring accommodations in the application process should notify Karen Poe, Department of Management, (540)231-6353 or (TDD) 1-800-828-1120.
